Partnership Proposal

Sportsphere Platform — Equity & Operating Agreement

March 13, 2026 • Prepared by TitanAI LLC

TitanAI LLC

DEVELOPER • BACK OF HOUSE

×

Andrew Collazo

CONTRIBUTOR • FRONT OF HOUSE

SECTION 01

Executive Summary

This proposal outlines the terms of engagement between **TitanAI LLC** ("Developer") and **Andrew Collazo** ("Contributor") regarding the Sportsphere sports community platform.

TitanAI LLC has developed Sportsphere from an initial concept into a fully functional, production-grade application comprising 69 pages, 205 components, 50 database tables, and a comprehensive AI-powered feature suite. The platform is live, deployed, and tested with a 98.1% automated test pass rate.

This document defines the scope of work completed, its market value, the respective contributions of each party, and the proposed terms for an ongoing milestone-based equity partnership.

> **Key Principle:** TitanAI LLC retains 100% ownership of all intellectual property, code, and infrastructure. Andrew Collazo receives 25% equity upon signing, reflecting his initial concept and network access. He can earn an additional 20% (to 45%) through measurable business milestones with defined deadlines. TitanAI's equity is protected from dilution — any investor equity comes from Andrew's pool first.

SECTION 02

What Has Been Built

Sportsphere is a full-featured sports community and streaming platform — the only all-in-one solution combining social networking, live streaming, creator monetization, athlete scouting, coaching tools, and AI-powered features in a single platform.

69	205	50	159
PAGES	COMPONENTS	DATABASE TABLES	AUTOMATED TESTS

Core Feature Suite

CATEGORY	FEATURES
Social Network	Posts, comments, follows, stories, messaging, notifications, DMs
Live Streaming	HLS streaming, real-time chat, polls, Q&A, sentiment analysis, VOD
Short-Form Video	TikTok-style reels with AI assistant, effects, discovery
Creator Monetization	Stripe subscriptions, tipping, merchandise shop, earnings dashboard
AI Features	AI Coach, content moderation, feed ranking, recommendations, Scout Card narratives
Athlete Development	ProPath suite, Scout Card, training streaks, stat tracking, video telestration
Recruiting & Scouting	GetNoticed marketplace, ScoutCard search, coach scouting hub
Live Sports	GameDay real-time scoring (4 sports), box scores, game recaps, news ticker
Gamification	Points, badges, challenges, leaderboards, achievements
Community	Groups, forums, events, Q&A, maps integration
Admin & Moderation	Admin dashboard, content moderation queue, user management, analytics
Premium	Subscription tiers, paywall gates, feature access control

Technology Stack

LAYER	TECHNOLOGY
Frontend	React 18, Vite 6, Tailwind CSS, Radix UI (25+ components), Framer Motion
Backend	Supabase (PostgreSQL, Edge Functions, Auth, Realtime, Storage)
Payments	Stripe (live keys — subscriptions, tips, purchases)
AI	Anthropic Claude (moderation, coaching, recommendations, content generation)
Video	Mux + HLS.js (processing, streaming, playback)
Hosting	Vercel (production deployed, custom domain)
Testing	Playwright (159 tests, 14 phases, 98.1% pass rate)

SECTION 03

Contribution Analysis

For transparency, the following comparison documents the respective contributions to the Sportsphere platform as of this date.

TitanAI LLC DEVELOPER

- Deep competitive research (GameChanger, Hudl, NCSA, FloSports)
- Product vision and design direction (Instagram/ESPN mashup concept)
- Authored the 12-phase product architecture prompt
- Built 100% of production codebase from scratch
- 69 pages, 205 components, 50 database entities
- Full Supabase backend architecture (auth, RLS, realtime)
- Stripe payment integration (live)
- AI feature suite (Claude integration via Edge Functions)
- 159 automated tests across 14 phases
- Production deployment, CI/CD, monitoring
- Security hardening (RLS on all tables, rate limiting)
- Performance optimization (N+1 fixes, code splitting)
- 15 seeded bot accounts + 157 posts for launch
- All hosting, API, and infrastructure costs paid
- TitanAI branding and chatbot integration

Andrew Collazo CONTRIBUTOR

- Original idea for a sports community app
- Attempted Base44 no-code build (incomplete, not production-grade)
- Domain experience in youth sports (baseball, softball)
- Access to coaching network and league contacts
- Texas A&M alumni network and affiliation
- Facility access for pilot site
- Girls softball team (pilot group)
- 8u boys baseball team (pilot group)
- Zero lines of production code
- Zero capital invested
- Zero design, architecture, or research contributions
- No formal agreement to date

Summary: Andrew Collazo contributed the initial idea for a sports app and attempted to build it using the Base44 no-code platform but was unable to complete it. TitanAI LLC conducted all competitive research, defined the product vision and design direction, authored the complete product architecture, and built the entire platform from scratch on production-grade infrastructure — 205 custom components, 6 major third-party integrations, and comprehensive testing, security, and deployment infrastructure. All design, development, and operational costs have been borne exclusively by TitanAI LLC.

SECTION 04

Market Valuation

Development Replacement Cost

The cost to hire a professional team to rebuild the current Sportsphere platform from scratch:

FEATURE SET	ESTIMATED COST
Social network (feed, profiles, follows, messaging)	$50,000 – $100,000
Live streaming infrastructure	$100,000 – $200,000
AI features (moderation, coaching, recommendations)	$50,000 – $100,000
Coaching tools + video telestration	$30,000 – $50,000
Payment / monetization (Stripe integration)	$20,000 – $40,000
Athlete development suite (ProPath)	$30,000 – $50,000
GameDay real-time scoring	$20,000 – $30,000
Maps, analytics, admin, community	$30,000 – $50,000
Total Rebuild Cost	**$330,000 – $620,000**

Startup Valuation Benchmarks

STAGE	VALUATION RANGE	REQUIREMENTS
Current (MVP, pre-revenue)	**$1M – $3M**	Working product, feature breadth
10K+ active users	$3M – $10M	User traction, retention metrics
100K+ users, $1M ARR	$10M – $30M	Series A territory

Total Addressable Market

MARKET SEGMENT	2025 SIZE	PROJECTED	CAGR
Sports Technology	$31–34B	$68–192B (2030–34)	15–22%
Sports Online Streaming	$28B	$134B by 2032	24.6%
Youth Sports Software	$1.36B	$3.93B by 2034	12.5%
Sports Coaching Platforms	$581M	$3.35B by 2033	24.5%

SECTION 05

Intellectual Property

All intellectual property associated with the Sportsphere platform is owned exclusively by TitanAI LLC. This includes but is not limited to:

- ✓ All source code, components, and application architecture
- ✓ Database schemas, API integrations, and serverless functions
- ✓ AI models, prompts, and inference pipelines
- ✓ UI/UX design, branding assets, and visual identity
- ✓ Test suites, deployment configurations, and CI/CD pipelines
- ✓ User data, analytics, and platform metrics
- ✓ The TitanAI brand, trademarks, and associated assets

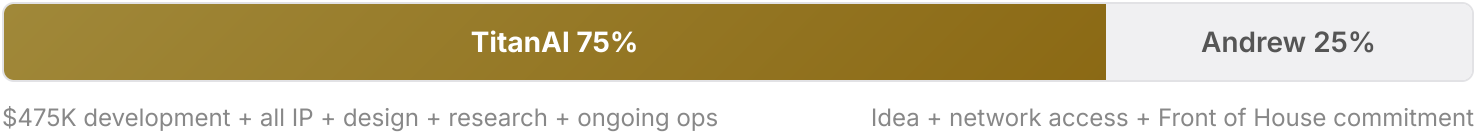
> **Non-Negotiable:** Under standard work-for-hire and independent development doctrine, all rights belong to TitanAI LLC as the creator of the software. No IP is transferred or shared under this agreement. "Powered by TitanAI" branding remains on the platform regardless of equity structure.

SECTION 06

Proposed Equity Structure

TitanAI LLC proposes a **milestone-based equity partnership** that rewards Andrew Collazo for measurable business results. Starting equity reflects the value of his idea and network access. Additional equity is earned through verified milestones with defined deadlines — not granted.

Starting Position: 75 / 25



Andrew receives **25%** upon execution of this agreement, reflecting his initial idea, youth sports network, facility access, and commitment to Front of House operations. TitanAI retains **75%**, reflecting the $475K average replacement cost of the platform, all intellectual property, product design and research, and ongoing Back of House operations and infrastructure costs.

SECTION 06 (CONTINUED)

Path to 45%: Milestone-Based Vesting

Andrew can earn an additional **20 percentage points** of equity (from 25% to 45%) by hitting the following business milestones. Each milestone has a **defined deadline** and is verified using data from Supabase and Stripe — platforms owned and controlled by TitanAI LLC. No milestone vests until independently verified at the quarterly review. Revenue and fundraising are separate milestones — both are required.

+4%
TOTAL: 29%

Milestone 1: 500 Users From Network

Drive 500 registered, active users to the platform through personal network, league contacts, and coaching connections.

Verified by: Supabase auth.users table — registered accounts with activity

Deadline: 6 months from signing

+4%
TOTAL: 33%

Milestone 2: 2,000 Users + 5 Leagues Onboarded

Scale to 2,000 active users and onboard 5 organized leagues or tournaments onto the platform.

Verified by: Supabase user count + Organization entity records

Deadline: 12 months from signing

+4%
TOTAL: 37%

Milestone 3: 10,000 Users + Tournament Partnerships

Scale to 10,000 active users with tournament partnerships generating organic growth through seasonal play.

Verified by: Supabase user count + signed partnership documentation

Deadline: 18 months from signing

+4%
TOTAL: 41%

Milestone 4: $50K Annual Recurring Revenue

Generate $50,000+ in annual recurring revenue (~$4,167/month) through platform subscriptions, premium tiers, and monetization features via Stripe.

Verified by: Stripe revenue dashboard — trailing 12-month or annualized MRR

Deadline: 24 months from signing

+4%

TOTAL: 45%

Milestone 5: $250K Capital Raise

Close a fundraise of $250,000+ into the company from outside investors. This milestone is separate from the revenue milestone — both are required to reach 45%.

Verified by: Signed investment agreement + funds deposited in company account

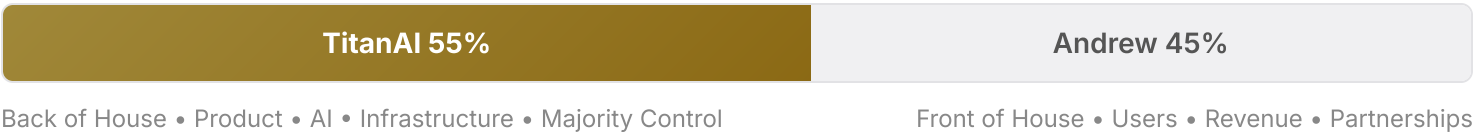
Deadline: 24 months from signing

Forfeiture: If any individual milestone is not met within 12 months past its deadline, that milestone's equity is permanently forfeited and returns to TitanAI LLC. Milestones do not need to be completed in order, but each has its own expiration.

Equity at Each Stage

STAGE	TITANAI LLC	ANDREW COLLAZO	TRIGGER	DEADLINE
Starting (upon signing)	**75%**	**25%**	Agreement executed + facility pilot launched	Day 1
After 500 users	71%	29%	500 active users from his network	Month 6
After 2K users	67%	33%	2,000 users + 5 leagues onboarded	Month 12
After 10K users	63%	37%	10,000 users + tournament partnerships	Month 18
After $50K ARR	59%	41%	$50K+ annual recurring revenue	Month 24
Full 55/45	**55%**	**45%**	$250K fundraise closed	Month 24

Final Position: 55 / 45



SECTION 07

Roles & Responsibilities

TitanAI LLC BACK OF HOUSE

- Product development and engineering
- AI infrastructure and feature development
- Database, hosting, and deployment
- Security, performance, and reliability
- Technical architecture decisions (veto power)
- API integrations and third-party services
- Automated testing and quality assurance
- Data analytics and platform metrics
- All infrastructure and API costs

Andrew Collazo FRONT OF HOUSE

- User acquisition and community growth
- League, team, and tournament partnerships
- Fundraising and investor relations
- Public-facing representation and pitches
- Coach and parent onboarding
- Sports content strategy and curation
- Customer support and feedback collection
- Marketing, social media, and outreach
- Pilot programs at his facility and leagues

SECTION 08

Andrew's Network & Distribution Value

Andrew Collazo's primary value beyond the initial concept is his **embedded position in the youth sports ecosystem**. These are not theoretical connections — they represent provable distribution channels.

ASSET	VALUE TO SPORTSPHERE
Girls softball team	Instant pilot group — players, parents, coaches all onboard
8u boys baseball team	Second pilot, different sport = proves multi-sport viability
League connections	Direct path to bulk user acquisition (leagues = hundreds of users each)
Tournament connections	Tournaments are GameChanger's bread and butter — this is how we compete
Coach network	Coaches are the distribution lever — they tell parents what app to use
Texas A&M affiliation	Credibility, access to collegiate athletes, potential university partnership
Facility access	Physical pilot site for "Powered by Sportsphere" events
GameChanger familiarity	End-user experience with the competitor — can speak to parent/coach pain points from firsthand use

Growth Strategy: Andrew pilots Sportsphere with his own teams → coaches see it and adopt it → tournament organizers offer it to all teams → word of mouth spreads → organic growth to 10K+ users → pre-seed or acquisition conversation.

SECTION 09

Protections & Governance

Verification Protocol

- ✓ **Quarterly reviews (every 90 days)** — both parties review the milestone ledger
- ✓ **Data-driven** — pulled directly from Supabase and Stripe, no self-reporting
- ✓ **Automatic vesting** — if milestone is met, equity vests per this agreement
- ✓ **Milestone deadlines** — each milestone has a defined deadline; equity forfeited if missed by 12 months past deadline
- ✓ **Disputes** — go to a pre-agreed mediator

Key Protections

CLAUSE	DETAIL
IP Ownership	TitanAI LLC retains 100% of all IP regardless of equity split
Technical Veto	TitanAI has final say on all technical and architectural decisions
TitanAI Branding	"Powered by TitanAI" branding remains on platform permanently
Forfeiture	If any milestone is not met within 12 months past its deadline, that milestone's equity is permanently forfeited to TitanAI
Non-Compete	Andrew agrees not to develop or fund a competing platform for 2 years
TitanAI Equity Protection	TitanAI's equity is locked and does not dilute from any fundraise. TitanAI maintains a floor of 55% — majority control is never relinquished
Investor Dilution Source	All investor equity comes from Andrew's vested and unvested pool first. New shares may only be created with TitanAI's written consent
Milestone Vesting Order	Milestone equity vests immediately prior to the closing of any fundraise that triggers it — vest first, then dilute
Acquisition Acceleration	If company is acquired, all milestones accelerate — Andrew receives full earned equity at time of sale
Drag-Along / Tag-Along	Both parties must agree to any acquisition (mutual consent)
No Equity Until Signed	Zero equity vests until this agreement is fully executed by both parties
Data Source Control	TitanAI owns every data source used to verify milestones (Supabase + Stripe)

Capital Allocation & Compensation

Upon any capital raise (including the $250K Milestone 5), funds are allocated in the following priority order. No allocation may be changed without written consent from both parties.

Capital Allocation Priority

PRIORITY	ALLOCATION	AMOUNT
1st	TitanAI founder reimbursement (documented pre-investment development costs, hosting, APIs, infrastructure)	$25,000
2nd	12-month operating runway (Supabase, Vercel, Anthropic API, Mux, CDN, domain, tools)	$8,000–$15,000
3rd	CTO compensation (TitanAI LLC) — 6 months	$42,000
4th	Front of House compensation (Andrew Collazo) — 6 months	$21,000
5th	Growth budget (marketing, tournament sponsorships, swag) — jointly approved	$30,000
6th	Legal & compliance (operating agreement, COPPA, terms of service)	$10,000
7th	Reserve — held in company account, allocated by mutual agreement	Remainder

Compensation Structure

Once the company is capitalized (post-fundraise), both parties receive below-market salaries reflecting the early-stage nature of the business.

ROLE	MONTHLY	ANNUALIZED	MARKET RATE	DISCOUNT
CTO / Back of House (TitanAI LLC)	$7,000	$84,000	$120K–$180K	40–53% below market
Front of House (Andrew Collazo)	$3,500	$42,000	$50K–$80K	16–47% below market

Justification: The CTO role commands higher compensation because (a) it reflects a higher market rate for senior fullstack engineering, AI, and infrastructure expertise, (b) TitanAI has already contributed months of unpaid development work valued at $475,000, and (c) the CTO is the single point of failure for the platform — if Back of House stops, the product dies. Both parties are taking significant below-market compensation as an investment in the company's growth.

Pre-Capitalization: Until a fundraise closes, TitanAI LLC continues to bear all operational costs. No compensation is owed to either party prior to capitalization. TitanAI's documented pre-investment costs are reimbursed first from any capital raised.

SECTION 10

Go-to-Market Timeline

WEEK 1–2

Legal & Foundation — Sign this agreement. Engage startup attorney. Document sweat equity. COPPA compliance review.

WEEK 3–4

Pilot Launch — Deploy Sportsphere at Andrew's facility. Onboard softball + baseball teams. Andrew begins coach outreach.

MONTH 2

Network Activation — Andrew onboards league contacts. Target 500 users. Launch on Product Hunt. Activate Stripe subscriptions.

MONTH 3–4

Revenue & Growth — Hit 2,000 users. Onboard 5 leagues. Begin pre-seed fundraise ($500K at $2.5M valuation).

MONTH 5–6

Scale — Target 10,000 users. Tournament partnerships. Mobile app development begins. Hire first engineer.

SECTION 11

Competitive Advantage

No existing platform combines all of Sportsphere's features. Athletes currently need 4–6 separate apps. We are the all-in-one sports super-app.

COMPETITOR	WHAT THEY DO	WHAT THEY LACK
GameChanger	Scoring, team management	No social, no streaming, no scouting, no monetization
Hudl	Video analysis	No social, no streaming, no community
NCSA / SportsRecruits	Recruiting ($1,500–$4,200/yr)	Recruiting only, no content, no streaming
FloSports	Niche streaming	No social, no coaching, no scouting
TeamSnap	Team logistics	No content, no streaming, no AI
Sportsphere	**All of the above + AI-powered features + creator monetization**	

SECTION 12

Next Steps

- **Review:** Andrew Collazo to review this proposal and confirm acceptance of terms
- **Legal review:** Both parties engage counsel to draft binding agreement ($500–$1,500)
- **Execution:** Sign formal agreement within 30 days
- **Pilot:** Deploy Sportsphere at Andrew's facility for upcoming season
- **Commencement:** Begin collaborative go-to-market execution per timeline above

Notice: TitanAI LLC will pause further feature development on Sportsphere until this agreement is fully executed. No equity is granted, no partnership is formed, and no commitments are made until both parties sign.
