Investor Brief

Sportsphere — Pre-Seed Investment Opportunity

March 14, 2026 • Prepared by TitanAI LLC

$750K	$6M	~11.1%
RAISE AMOUNT	PRE-MONEY VALUATION	EQUITY OFFERED

SECTION 01

The Opportunity

The sports technology market is valued at **$32–34 billion** and growing at **15–22% CAGR**. Youth sports alone is a **$54 billion** industry in the United States, with 27.3 million athletes and families spending an average of **$1,016 per child per year** — up 46% since 2019.

Yet no single platform combines social networking, live streaming, athlete scouting, coaching tools, real-time scoring, creator monetization, and AI — all in one place.

Today, athletes, coaches, and sports families juggle **4–6 separate apps** to do what one platform should handle: GameChanger for scores, Hudl for video, NCSA for recruiting, Instagram for highlights, Venmo for team fees, and GroupMe for communication.

Sportsphere is the all-in-one sports super-app that replaces all of them.

> **The Gap:** Billion-dollar companies own individual slices of the sports tech stack. Nobody owns the full stack. Sportsphere does — and it's already built, deployed, tested, and mobile-ready.

SECTION 02

The Product

Sportsphere is not a concept, wireframe, or pitch deck promise. It is a **fully built, production-deployed, mobile-optimized, and tested** platform — live at sportsphere-titan-one.vercel.app.

69	208	71	98.1%
PAGES	COMPONENTS	DATABASE ENTITIES	TEST PASS RATE
All mobile-responsive	157 feature + 51 UI	Full schema with RLS	159 automated tests

Social Network
Posts, comments, follows, stories, messaging, notifications, DMs

Live Streaming
HLS streaming, real-time chat, polls, Q&A, sentiment analysis, VOD

Short-Form Reels
TikTok-style video with AI assistant, effects, and discovery feed

Creator Monetization
Stripe subscriptions, tipping, merch shop, earnings dashboard (live)

AI Coaching
Claude-powered coach, content moderation, feed ranking, recommendations

Athlete Scouting
ProPath suite, ScoutCard with AI narratives, GetNoticed marketplace

GameDay Scoring
Real-time scoring for 4 sports, box scores, game recaps, news ticker

Gamification
Points, badges, challenges, leaderboards, achievements, streaks

Community
Groups, forums, events, Q&A, maps, admin dashboard, moderation

Mobile Platform (PWA)
Installable to home screen, push notifications, touch gestures, offline-ready

SECTION 03

Technology

Built on a modern, scalable stack designed for rapid iteration and cost-efficient scaling. No legacy code, no technical debt.

LAYER	TECHNOLOGY	WHY
Frontend	React 18 + Vite 6	Industry standard, massive talent pool, fast builds
UI	Tailwind CSS + Radix UI + Framer Motion	Accessible components, smooth animations, rapid styling
Mobile	**PWA (Service Worker, Manifest, Gestures)**	**Installable, push notifications, no app store dependency**
Backend	Supabase (PostgreSQL)	Auth, realtime, storage, edge functions — scales to millions
Payments	Stripe (live keys)	Subscriptions, tips, purchases — already processing
AI	Anthropic Claude (11 Edge Functions)	Moderation, coaching, recommendations, content generation
Video	Mux + HLS.js	Professional video processing, adaptive streaming
Hosting	Vercel	Global edge deployment, instant rollbacks, preview deploys
Testing	Playwright	159 tests across 14 phases, automated regression coverage

> **TitanAI Infrastructure:** All AI features are powered by TitanAI's proprietary integration layer with 11 serverless functions using both Claude Sonnet (complex analysis) and Claude Haiku (fast moderation), ensuring responsible AI deployment from day one.

SECTION 03 (CONTINUED)

What "Already Built" Means

Most pre-seed companies pitch a prototype. Every core capability in Sportsphere is live and functional today.

CAPABILITY	STATUS	EVIDENCE
User authentication	**LIVE**	Supabase Auth with implicit flow, session management
Payment processing	**LIVE**	Stripe checkout, webhooks, subscription management
AI moderation	**LIVE**	11 Edge Functions processing content in real-time
Live video streaming	**LIVE**	Mux integration with HLS adaptive playback
Real-time features	**LIVE**	WebSocket subscriptions for chat, notifications, scores
Mobile experience	**LIVE**	PWA with push notifications, gestures, offline-ready
Security	**PASS**	Row-Level Security on all 71 database entities
Automated testing	**PASS**	159 tests, 98.1% pass rate, 14 test phases

SECTION 04

Market Size

Sportsphere sits at the intersection of five high-growth markets, each expanding at double-digit rates.

MARKET SEGMENT	2025 SIZE	PROJECTED SIZE	CAGR
Sports Technology	$32–34B	$68–192B (2030–34)	15–22%
Sports Online Streaming	$28B	$134B by 2032	24.6%
Youth Sports Software	$1.36B	$3.93B by 2034	12.5%
Sports Coaching Platforms	$1.5B	$2.6–3.5B by 2033	12–13%
Creator Economy	$205B+	$480B+ by 2027	23%+

Up 46% since 2019

SECTION 05

Competitive Landscape

Billion-dollar players own individual slices. None offer the full stack.

FEATURE	GAMECHANGER	HUDL	NCSA	FLOSPORTS	TEAMSNAP	SPORTSPHERE
Live Scoring	✓	—	—	—	—	✓
Video Analysis	—	✓	—	—	—	✓
Recruiting	—	✓	✓	—	—	✓
Live Streaming	✓	—	—	✓	—	✓
Social Network	—	—	—	—	—	✓
Creator Monetization	—	—	—	—	—	✓
AI Coaching	—	—	—	—	—	✓
Team Management	✓	✓	—	—	✓	✓
Short-Form Video	—	—	—	—	—	✓
Mobile App	✓	✓	✓	✓	✓	✓

COMPETITOR	REVENUE / FUNDING	USERS	KEY LIMITATION
GameChanger (DICK'S)	$100M+ revenue	9M+ users	Scoring only. No social, streaming, or scouting.
Hudl	$230M+ funding	3.5M+ customers	Video analysis only. No social or community.
NCSA / SportsRecruits	Acquired by IMG	31K+ placed	Recruiting only. $1,320–$4,200/yr.
FloSports	$100M+ funding	23M viewers	Streaming only. No social or coaching.
TeamSnap	$52M+ funding	25M+ users	Logistics only. No content or AI.

Sportsphere's Moat: The all-in-one platform creates a network effect no single-feature competitor can replicate. Once a team's scores, video, scouting profiles, and social interactions live in one place, switching costs become prohibitive.

SECTION 06

Business Model

Sportsphere generates revenue through multiple streams, creating a diversified business with high lifetime value per user.

REVENUE STREAM	PRICING	TARGET SEGMENT
Creator Subscriptions	$4.99 – $29.99/mo	Content creators, coaches, athletes with followings
Premium User Tiers	$9.99 – $24.99/mo	Athletes, parents, coaches seeking advanced features
Recruiting Packages	Competing with $1,320–$4,200/yr	High school athletes seeking college recruitment
Tips & Donations	Variable (platform takes %)	Fan-to-creator micropayments during live streams
Creator Merchandise	Per-item (platform takes %)	Athletes and creators selling branded merchandise
B2B Organization Plans	$10,000 – $40,000/yr	Leagues, tournaments, facilities, athletic organizations
Brand Sponsorships	**$5,000 – $25,000/quarter**	**Equipment brands, apparel, sports nutrition**

Stripe is Live: Payment infrastructure is already integrated and processing. Subscriptions, tips, and purchases can begin generating revenue immediately upon user acquisition.

Brand Sponsorship Opportunity: Youth sports families spend $1,016/year per child and are difficult to reach through traditional advertising. Sportsphere offers brands a captive, high-intent audience with measurable in-app impressions. Conservative Year 1: 5–10 brand deals = $100–300K in non-dilutive revenue.

SECTION 07

Go-to-Market Strategy

Sportsphere's GTM follows the classic beachhead model: dominate one niche, then expand.

Beachhead: Youth Baseball & Softball

TitanAI has secured a strategic distribution network in youth baseball and softball, with direct access to teams, leagues, tournaments, and a physical facility for pilot deployment.

PHASE 1 — PILOT

Deploy at partner facility. Two pilot teams (girls softball + boys baseball) provide the initial user base. Coaches onboard their rosters. Parents install the PWA.

PHASE 2 — COACH ADOPTION

Coaches become the distribution lever. When coaches adopt Sportsphere for scoring and communication, every parent on the team follows. One coach = 15–25 new users.

PHASE 3 — TOURNAMENT SPREAD

Tournaments are the viral moment. When one team uses Sportsphere at a tournament, opposing teams see it. Tournament organizers adopt it. 10–20 new teams per event.

PHASE 4 — ORGANIC GROWTH

Network effects compound. Social features, scouting profiles, and content creation drive organic discovery. Athletes share ScoutCards. Coaches recommend the platform. Brand sponsorships fund marketing.

Why This Works: GameChanger built a $100M+ business with this exact playbook — start with youth baseball scoring, expand through coach adoption and tournament spread. Sportsphere offers everything GameChanger does **plus** social, streaming, scouting, AI, creator monetization, and mobile — all from day one.

SECTION 08

Traction & Readiness

Most pre-seed companies pitch a prototype. Sportsphere is a fully operational, production-hardened platform.

LIVE	LIVE	LIVE	PASS	PASS
PRODUCTION	PAYMENTS	MOBILE	SECURITY	PERFORMANCE
Deployed on Vercel	Stripe integrated	PWA installable	RLS on all tables	N+1 fixed

- ✓ Production deployed on Vercel with custom domain and global edge CDN
- ✓ Stripe live keys active — subscriptions, tips, and purchases ready
- ✓ PWA installable to iOS and Android home screens with push notifications
- ✓ Mobile touch gestures, safe-area insets, fluid typography, GPU optimization
- ✓ 159 automated tests across 14 phases with 98.1% pass rate
- ✓ Row-Level Security (RLS) enabled on all 71 database entities
- ✓ Rate limiting infrastructure deployed on Edge Functions
- ✓ Real-time subscriptions working for notifications, messaging, and live features
- ✓ AI infrastructure (moderation, coaching, recommendations) operational via TitanAI

SECTION 09

The Team

TitanAI LLC FOUNDER & DEVELOPER

- Sole owner and developer — built 100% of Sportsphere
- Compliance-first AI infrastructure company
- Full-stack engineering: React, Supabase, Stripe, Anthropic, Mux
- 69 responsive pages, 208 components, 71 database entities
- 23 Edge Functions (11 AI-powered), 159 automated tests
- Complete mobile/PWA platform with push notifications
- Owns all intellectual property, code, and infrastructure
- Product development, AI features, and technical architecture

Distribution Network GTM PARTNERS

- Strategic advisor in Texas youth baseball/softball ecosystem
- Direct access to teams, leagues, tournaments, facilities
- Two pilot teams ready (girls softball + boys baseball)
- Coach and parent onboarding network

Hiring Plan

Growth Lead + first contract engineer within 90 days of funding. TitanAI retains technical leadership and all IP.

SECTION 10

Why $6M Valuation

This is not a guess. The $6M pre-money valuation is derived from four independent, data-backed methods.

Method 1: Replacement Cost

Rebuilding Sportsphere from scratch: **$452K–$851K** raw, **$632K–$1.19M** with IP premium. 2,900–4,200 hours of senior full-stack development.

Method 2: They Raised More With Less

COMPANY	WHAT THEY HAD	IMPLIED VALUATION	SPORTSPHERE ADVANTAGE
Overtime	Instagram clips, no app	~$10–12M	Full 69-page platform
WHOOP	Hardware prototype	~$12–15M	Production-deployed software
StatusPRO	VR tool for NFL teams	~$20M+	Consumer platform for all athletes
Strava	GPS cycling tracker	~$15M	Multi-sport with streaming + AI

Method 3: Industry Benchmarks (Carta Q3 2025)

BENCHMARK	VALUE	SOURCE
Pre-seed SAFE cap median ($250K–$1M)	**$10M**	Carta Q3 2025
SaaS pre-seed average cap	**$17M**	Metal.so / Carta
AI startup premium over non-AI	**+42%**	Carta / VC Cafe
Seed median pre-money	**$16M** (all-time high)	Carta Q3 2025

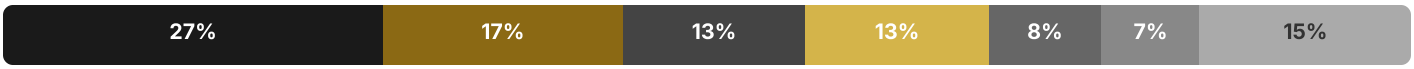
> **Sportsphere at $6M is below every benchmark.** This valuation gives investors a discount to the market median — built-in upside from day one.

SECTION 11

The Ask

$750K	$6M	~11.1%
PRE-SEED RAISE	PRE-MONEY VALUATION (SAFE Cap)	EQUITY FOR INVESTORS

Use of Funds



ENGINEERING $200K MARKETING $125K SALARY $96K GROWTH $100K INFRA $60K LEGAL $50K OPS $119K

CATEGORY	ALLOCATION	DETAILS
Engineering	$200,000 (27%)	Contract developer, feature development, mobile completion
Marketing & User Acq.	$125,000 (17%)	Tournament sponsorships, coach outreach, social, Product Hunt
Founder Salary (CTO)	$96,000 (13%)	Below-market CTO compensation ($8K/mo vs. $10–15K)
Growth Lead Hire	$100,000 (13%)	First hire — biz dev, partnerships, user acquisition
Infrastructure	$60,000 (8%)	Supabase, Mux video, Vercel pro, CDN, monitoring
Legal & Compliance	$50,000 (7%)	COPPA compliance, IP protection, corporate structuring
Operations & Buffer	$119,000 (15%)	Runway extension, travel, support, contingency

SECTION 12

Financial Projections

MONTH 6	MONTH 12	MONTH 18
10K users	**50K** users	**100K** users
$5K monthly recurring revenue	**$50K** monthly recurring revenue	**$150K** monthly recurring revenue

MILESTONE	USERS	MRR	ARR	KEY DRIVER
Month 6	10,000	$5,000	$60,000	Pilot expansion, tournament season, first paid subscribers
Month 12	50,000	$50,000	$600,000	Multi-sport expansion, B2B org deals, premium tier adoption
Month 18	100,000	$150,000	$1,800,000	Recruiting packages, creator economy, organic virality

Breakeven: At 25,000 users with 5% conversion and $15 ARPU, the platform generates $18,750 MRR — exceeding infrastructure costs. **Sportsphere can be cash-flow positive before 50K users.**

SECTION 13

Exit Opportunities

The sports technology M&A market is highly active — **$200B in total deal value in 2025** across 1,000+ transactions. Strategics are acquiring to fill product gaps — exactly the gaps Sportsphere fills.

POTENTIAL ACQUIRER	STRATEGIC RATIONALE	ESTIMATED RANGE
DICK'S / GameChanger	Social + streaming + AI features GameChanger lacks. Adds creator economy to their 9M user base.	$5M – $15M
Hudl	Social layer + scouting + live scoring complement video analysis.	$5M – $20M
TeamSnap	Content + streaming + AI to transform logistics app into engagement platform.	$3M – $10M
Private Equity	Roll-up play in fragmented youth sports tech. Sportsphere as consolidation platform.	$5M – $15M

5–15x	17–23	$5–20M
REVENUE MULTIPLE	MONTHS RUNWAY	EXIT RANGE
Sports SaaS acquisitions	From this raise	Based on traction

Investor Return Scenarios

EXIT VALUE	INVESTOR'S ~11.1%	RETURN ON $750K	MULTIPLE
$10M	$1.11M	$1.11M	**1.5x**
$15M	$1.67M	$1.67M	**2.2x**
$25M	$2.78M	$2.78M	**3.7x**
$50M (strategic)	$5.55M	$5.55M	**7.4x**

Investor Return: At a $6M SAFE cap and a conservative $15M exit, investors see a **2.2x return**. At $25M+, that climbs to **3.7x or higher within 18–24 months**. The $6M cap gives investors a discount to the Carta pre-seed median of $10M — built-in upside from day one.

SECTION 14

Why Sportsphere. Why Now. Why TitanAI.

Why Sportsphere: The sports tech market is $32–34B and growing 15–22% annually. Every major player — GameChanger ($100M revenue), Hudl ($230M funding), TeamSnap ($52M funding), FloSports ($100M funding) — built a single feature and captured millions of users. Nobody has combined them all. Sportsphere has.

Why Now: Youth sports spending is at an all-time high ($1,016/child/year, up 46%). 27.3 million youth athletes need a unified platform. AI is transforming sports tech — Sportsphere is AI-native from day one. The creator economy ($205B+) has not reached sports. GameChanger proved the playbook.

Why TitanAI: One developer built what five funded companies built separately — and added AI, creator monetization, mobile, and social on top. The platform is not a pitch. It's production code: 69 pages, 208 components, 71 database entities, 23 serverless functions, 159 automated tests, live payments, live AI, live mobile.

The $750K is not for building. The building is done.
The $750K is for distribution — getting this product into the hands of the 27.3 million youth athletes and families who need it.
